The Internet is full of people; Omegle lets you meet them. When you use Omegle, we pick someone else at random and let you have a one-on-one chat. You're kept anonymous unless you tell someone personal info (not suggested—safety is important), and you can stop a chat at any time.

If you prefer, you can add your interests, and Omegle will look for someone who's into some of the same things as you, instead of someone completely random.

By using Omegle, you accept the terms at the bottom.

Parental control protections (such as computer hardware, software, or filtering services) are commercially available that may assist you in limiting access to material that is harmful to minors. If you are interested in learning more about these protections, information is available at <http://kids.getnetwise.org/tools/> as well as a number of other Internet sites that provide information on this form of protection.

* Omegle video chat is moderated. However, moderation is not perfect. You may still encounter people who misbehave. They are solely responsible for their own behavior.
